

Asep Syaepul Rohman

UI/UX Designer & Developer

Cilandak, Jakarta Selatan | mail.asepsyaepul@gmail.com | [0811186695](tel:0811186695) | linkedin.com/asepsyaepul | github.com/asepsyaepul | asepsyaepul.notion.site

PROFESSIONAL SUMMARY

Results-driven UI/UX Developer & Design Engineer with 7+ years of experience blending human-centered product design with production-ready frontend development. Specialized in bridging the gap between high-fidelity Figma prototypes and scalable web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Proven track record in shipping enterprise ERP, POS, B2B SaaS, and government systems delivering up to 30% faster design-to-development handoffs, 24% conversion rate uplift, and 25% user growth.

CORE SKILLS & TECH STACK

- **Design & Research:** Product Design, Design Systems & Tokens, User Research, Usability Testing, User Flows, Wireframing, Rapid Prototyping (High/Low Fidelity), Information Architecture.
- **Frontend Engineering:** React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, shadcn/ui, HTML5, CSS3, REST APIs Integration.
- **Tools & Workflow:** Figma (Advanced Variables & Components), Framer, VS Code, Git, GitHub, Miro, Agile/Scrum, Jira.
- **Languages:** Indonesian (Native), English (Working Proficiency)

WORKING EXPERIENCES

PT Dinamika Simbolis Indonesia – Tangerang, Indonesia

UI/UX Developer (Jan 2026 – Jul 2026)

- **Symbolix.ai (ERP & POS):** Led the end-to-end UX/UI redesign of core accounting and inventory modules; transformed complex multi-step financial workflows into intuitive, responsive dashboards that significantly minimized user input errors and streamlined daily operations.
- Conducted structured user research and usability testing sessions with active stakeholders, identifying critical navigation bottlenecks to enhance workflow completion speed.
- **Client Transformation (PT Liftech Abdi Perkasa):** Architected and deployed a modern web interface from scratch using TypeScript, Tailwind CSS, and shadcn/ui, translating approved design system tokens into reusable, clean production code.

PT Tehnonusa Prima Solusi – Jakarta, Indonesia

Software Developer (July 2025 – February 2026)

- Developed and optimized high-traffic, production-grade web applications for **Korlantas Polri** using **React.js**, prioritizing UI stability and state management efficiency.
- Partnered with backend engineers to seamlessly integrate secure REST APIs, ensuring rapid query execution and reliable rendering across complex data modules.
- Conducted UI code refactoring that improved overall page load speed, component reusability, and cross-browser responsiveness.

PT Serasi Autoraya (SERA) – Jakarta, Indonesia

UI/UX Designer (December 2024 – May 2025)

- Revamped the TRACtoGO web and mobile user experience, successfully reducing design-to-development turnaround by 30% through tighter engineering collaboration and reusable Figma components.
- Maintained, documented, and scaled the multi-brand Design System, establishing consistent UI components, typography, and color tokens across multiple digital touchpoints.
- Ran feasibility syncs with frontend teams to align visual micro-interactions with technical framework limitations.

PT Lалуasa Cipta Asia (Gizalab) – Jakarta, Indonesia

Product Designer (October 2023 – August 2024)

- Managed the full product lifecycle from exploratory discovery, wireframing, and Figma prototyping to direct frontend component implementation.
- Boosted user satisfaction (CSAT) by 28% by restructuring product information architecture and refining interaction feedback loops.
- Authored design specifications and handoff guidelines that ensured visual fidelity in final production builds.

PT Duta Daya Digital (Crewdible) – Tangerang, Indonesia

UI/UX Designer (May 2022 – April 2023)

- Redesigned the Order Management System (OMS) dashboard, resulting in a **24% increase in user conversion/task completion rate**.
- Transformed legacy desktop tables and bulk actions into responsive, mobile-friendly interfaces compliant with business workflow requirements.

PT Astra Graphia Information Technology – Jakarta, Indonesia

UI/UX Designer (June 2019 – April 2022)

- Designed UI features and telemetry dashboards for the **Isuzu Link** platform, directly contributing to a **25% surge in active new user adoption**.
- Successfully steered UI/UX deliverables for up to 5 concurrent enterprise client accounts under strict delivery deadlines without sacrificing usability benchmarks.

EDUCATION & CERTIFICATIONS

Formal Education

- **Binus University (2018 – 2020)**
Bachelor of Information Systems
- **Bogor Agricultural University (2014 – 2017)**
Associate's Degree of Informatics Management

Bootcamp & Certifications

- **Dibimbing.id (September 2024 – February 2025)**
Front-End Web Development | Final Score : 96.93/100
